- **Does your company have protocols for dealing with workplace violence?**
- **Do you know what the plan is for handling disgruntled customers or coworkers?**
- **Are you empowered to make your own life-saving decisions during a terrible tragedy like an attack at work?**
- ***Are you prepared?***

The realities of workplace violence are sobering. Despite the prevalence of an "It can't happen to me," or "That can't happen here," attitude, the truth is that workplace violence can happen anywhere and can be devastating for the employees and staff.

ALICE Training **prepares individuals by empowering them with response options so that they can make their own survival decisions during emergency situations.**

Join the Lombard Chamber of Commerce for an overview of this program that we will be introducing this fall.
